**Bonus Question:** What do you notice about multiplying numbers by multiples of 10?

A: To multiply multiples of 10, remove the zero from the multiple of 10 and multiply the remaining two numbers. Then, add the zero to your answer again. For example, in the equation 2 \times 10:

- Remove the zero: 2 \times 1 = ?
- Solve: 2 \times 1 = 2
- Add the zero again: 2 \times 10 = 20
